<Date> June 16, 2014

Subject	Note on parts replacement (Change to the shape of Exit guide and Bracket)	
Model	TASKalfa 750c, TASKalfa 650c, TASKalfa 550c	
Classification	Field measure timing:	Information (including compatibility)
	Problem:	Except SC/Error, Paper Feeding/Conveying, Image or Machine operation
	Type of change:	Hardware

Exit guide (No. 2) and Bracket (No. 3) are changed as shown below for the assembly work efficiency purposes. A special attention is required when replacing the parts after this change, please refer to the [Field Measure].

FIG. 77 RADF-FEED-6-ASM

(Change is applicable only to the machine front side)

[Installing the new Bracket (No. 3)]

When installing the new Bracket (No. 3) to the new Exit guide (No. 2), fit the boss on the Exit guide into the opening on the Bracket and then secure it using a screw.

Field Measure	When replacing with new Exit guide No. 2), please use a set part (No. 1). (As for installation, refer to [Installing new Bracket (No. 3)] above.)
Implement timing	There is no current production.
